Infrastructure as Code

EXPERIENCE

Texas Comptroller of Public Accounts

Programmer | February 2016 to Present

Performs highly advanced (senior-level) programming work. Work involves overseeing programming projects; analyzing proposed applications; and designing software solutions. Work as a cloud-native developer, architecting and programming back/front-end systems to streamline existing processes or create new ones. Oversees the development and execution of enterprise-level strategies and technical direction. Supervises the work of junior developers. Works under minimal supervision, with considerable latitude for the use of initiative and independent judgment.

Texas Comptroller of Public Accounts

Interactive Info-graphics Designer, Web Developer | February 2014 to February 2016

Work involved coordinating web environment design, deployment, development, and maintenance activities. Create public-facing financial tools, charts and maps to explain regular agency data releases. Developed processes to dynamically update content on the agency's site using APIs.

Bloomberg L.P.

Interactive Info-graphics Designer | July 2010 to February 2014

Create interactive graphics using modern web technologies to explain economic data and market events. Also, setup processes to automate charts tied to regular data releases.

CERTIFICATIONS

AWS Certified Solutions Architect

Associate | May 2022

Earners of this certificate have a comprehensive understanding of AWS services and technologies.
